Chris

Please find attached Revision 3 of the FSP/QAPP, which has been updated to address the comments received from EPA Applied Science and Quality Assurance Branch.

In addition to the pdf containing the complete document (including all appendices), I have also included the Word versions of the FSP and the QAPP (with "track change" mode on) to make it easier to see where changes were made from the previous versions.

Let me know if you have any questions or need anything else.

Thanks
